# Creativity Rewarded!

**Congratulations to Jennifer Garnett of Langhorne, PA winner of the "Where's Jerry?" KomaFoam contest!**

"I would like to personally thank everyone who participated in our *Where's Jerry* contest! We had over 200 entries and they were all very creative. I can't wait to see what you all come up with for our KomaAlu *Where in the World* postcard contest coming in July!"

Jerry White

**COMING SOON!**

## What is KomaFoam?

KomaFoam is the lightweight, rigid panel perfectly suited for a wide range of use in the signage industry.

- Features a low density, polystyrene foam core.
- Provides strength while the panel is also lightweight.
- Features high quality facing papers such as coated bleached liner and black kraft liner.
- Ideal for screen and hi-speed flatbed printing
- The facing papers make KomaFoam an excellent match for direct printing and mounting applications
- The Perfect P.O.P. Product
- Available in:
  - 48" x 96" - 3/16" White or Black - Qty 25 sheets
  - 40" x 60" - 3/16" White - Qty 25 Sheets
