

BEST PROSPECTS FOR YOUR WELL-BEING
Kömmerling 76 windows

A DECISION FOR MORE QUALITY OF LIFE

Kömmerring 76 windows

Whether you are building or renovating:
When you choose our Kömmerring 76 window and door system, you are choosing quality, longevity and energy efficiency. This not only reduces your costs, but also increases your comfort of living – and even the value of your property.

SUSTAINABILITY

- Highly thermally insulated
- Significant reduction of CO₂ emissions and high energy costs
- Maximum use of solar heat
- Resource-saving use of materials
- Intra-company recycling
- Lasting value due to longevity and excellent quality

USER-FRIENDLY

- Improved quality of life thanks to perfect sound insulation
- Improved security with integrated burglary protection
- Improved handling ease and reliable functionality using state-of-the-art technology
- Cosy living climate achieved through a carefully considered ventilation program
- Easy to clean due to robust, weather-resistant surfaces

ADAPTABLE

- Great product diversity: Windows, balcony and terrace doors, and parallel sliding-tilting doors
- Broad design spectrum of uPVC available in white and color laminates

INNOVATIVE

- Large glass areas with narrow, highly-stable profiles
